Professional Summary

Senior Data Engineer with 7+ years of experience building data platforms, analytics automation, integrations, and internal tools for corporate and multinational environments. Hands-on background with Python, SQL, AWS Glue, Athena, Redshift, S3, SAP HANA, BODS, Airflow, and Power BI, plus the ability to ship APIs and data-facing applications with FastAPI, Node.js, and React when the product requires it. Proven record in cost optimization, performance gains, and automation of business-critical workflows, with full professional English proficiency.

Key Achievements

- Helped reduce **AWS costs by approximately 70%** through refactoring, retiring legacy flows, and strategically migrating workloads to SAP HANA and BODS.
 - Automate Agrichem's forecast campaign, consolidating **122+ spreadsheets** and reconciling projections with current and historical revenue data.
 - Build a **data warehouse for Agrichem** from scratch, with landing/raw layers in S3 queried via Athena and refined/trusted layers in Redshift.
 - Delivered commercial and analytics solutions that contributed to a revenue increase from **R\$ 220M to R\$ 240M** at Safra Rica.
 - Created and optimized the executive **Cockpit** report, the company's main leadership dashboard, with a **90%+ performance gain**.
-

Technical Skills

- **Data Platforms:** AWS Glue, Athena, Redshift, S3, Airflow, Spark, BODS, SAP HANA, ETL/ELT, Data Warehouse.
 - **Languages:** Python, SQL, JavaScript, TypeScript, Dart.
 - **Backend & APIs:** FastAPI, Django, Flask, Node.js, Express, REST APIs, corporate integrations.
 - **Applications & Analytics:** React, Next.js, Power BI, Power Automate, SharePoint, React Native, Flutter.
 - **Infrastructure & AI:** Docker, Terraform, GitHub Actions, Linux, Zabbix, Grafana, OpenAI API, ElevenLabs, Amazon SageMaker.
-

Professional Experience

Nutrien Ag Solutions

Senior IT Analyst | Data Engineering, Automation & Full Stack

Apr/2023 - Present | Monte Azul Paulista, São Paulo, Brazil

Promoted from IT Analyst to Senior IT Analyst in 2026.

- Built Agrichem's data warehouse with landing/raw layers in S3, Athena queries, and refined/trusted layers in Redshift for analytics consumption and materialized consolidated views.
- Automated Agrichem's forecast campaign, including generation, collection, and consolidation of 122+ spreadsheets cross-referenced with current and historical revenue data.
- Maintained and optimized hundreds of ETL jobs using Airflow, AWS Glue, Redshift, Athena, S3, SAP HANA, and BODS, helping reduce AWS costs by approximately 70%.
- Automated paginated REST API integrations (Agrometrika, SAAM) and parallel Oracle extraction routines in Python, powering Power BI reports and 30+ daily automated reports.
- Built a sales approval web application using React, FastAPI, and MySQL, including email-based authentication and traceability.
- Worked on data migration and modernization initiatives (Azure -> SAP HANA, Data Factory -> BODS, Firebird -> Oracle), including view, procedure, and trigger conversion plus Power Automate and SharePoint workflows.

Safra Rica Agribusiness

IT Analyst | Data Engineering, Web Systems & Infrastructure

Nov/2018 - Apr/2023 | Monte Azul Paulista, São Paulo, Brazil

Promoted from IT Assistant to IT Analyst in 2022.

- Developed web systems for market pricing and sales budgeting using Node.js, React, and PostgreSQL.
- Contributed directly to revenue growth from R\$ 220M to R\$ 240M through commercial tooling and data analysis.
- Built a MySQL data warehouse with Python ETLs and cronjobs, consolidating data from 60+ views.
- Created the Cockpit report, the company's main executive dashboard, with a 90%+ performance gain.
- Delivered 80+ custom reports in Python/SQL, automated ERP routines with PyAutoGUI, and administered Linux/Windows servers with Zabbix and Grafana.

Infojet Soluções

IT Assistant | 2018

- Delivered technical support, equipment maintenance, system installation, and support for administrative and sales routines.

Selected Project

AI-Powered English Learning Platform

- Building an English learning platform with AI conversation, shadowing, grammar training, and guided practice.

- Integrating OpenAI and ElevenLabs for voice features and conversational interaction.
-

Education

Bachelor's Degree in Information Systems

Centro Universitário Unifafibe - Bebedouro, São Paulo, Brazil

2018 - 2021
